SUMMARY

- I have a growing interest in cybersecurity, focusing on areas like securing web applications, data privacy, and understanding vulnerabilities.
- With experience in web development, I have expanding into topics such as authentication mechanisms, network security, and penetration testing. You have a foundational knowledge of HTML, CSS, JavaScript, and PHP.
- i have skilled in identifying vulnerabilities and implementing security protocols to safeguard systems. Your expertise includes knowledge of tools like Wireshark, soft enginnering , and firewall management.
- i have goal is to build secure, reliable systems while continuously learning about best practices in the field.

WORK EXPERIENCE

STUDENT

TECNIA INSTITUTE OF ADVANCED STUDIES · FULL-TIME
TECNIA INSTITUTE OF ADVANCED STUDIES
SEP 2023 - PRESENT · 1 YR 3 MOS
SEP 2023 TO PRESENT · 1 YR 3 MOS
DELHI, INDIA · ON-SITE

- A dedicated cybersecurity enthusiast studying at Tecnia Institute of Advanced Studies, focused on safeguarding digital assets and ensuring robust security frameworks. Proficient in identifying vulnerabilities and implementing security measures. Skilled in translating security policies into actionable protocols to protect sensitive data. Additionally, experienced in HTML, CSS, Bootstrap, MySQL, PHP, Termux, Excel, C, and C++, bringing a versatile technical skillset to cybersecurity challenges. Passionate about staying updated with emerging threats, technologies, and best practices in cybersecurity.

Skills: Computer Networking · Cyber security · Cyberlaw · Bootstrap (Framework) · Cascading Style Sheets (CSS) · Database Management System (DBMS) · HTML · Microsoft Excel · Network Security · Microsoft Word · Web Technologies · Object-Oriented Programming (OOPS) using c++ · fundamental of computer and information technology · termux · JavaScript · Data Entry · DATA STURCTURE AND ALOGRITHM WITH USING C · Student Services

EDUCATION

BACHELOR OF COMPUTER APPLICATION

2023-2026 (present)

Guru Govind singh indraprastha university

AFFILATED COLLEGE

Tecnia institute of Advanced studies

SCHOOLING

2005-2022

SAVANU INTERNATIONAL SCHOOL

- 12 th(humanities stream)
- 10th (by all subject)

2021-2022 (completed)

2019-2020(competed)

PROJECT

The Vision Cooperative Urban Thrift & Credit Society Ltd.

Associated with Tecnia Institute of Advanced Studies – India Associated with Technia Institute of Advanced Studies – India

A Cooperative Thrift and Credit Society is a member-owned financial institution that promotes savings and provides affordable credit. Members elect a board of directors, and decisions are made democratically. The society offers services like savings accounts, credit facilities, and financial education.

Skills: HTML · Cascading Style Sheets (CSS) · JavaScript · Bootstrap (Framework)

AUTOMATED TELLER MACHINE

ATMS, or automated teller machines, are banking outlets where you can withdraw cash without going into a branch of their bank. Some ATM only dispense cash, while others allow transactions such as check deposits or balance transfers here you enter your pin and then you can check your balance, deposit, withdrawal, and see your transaction history as well

Skill: Data structure and algorithm using c language

Password Generator

A Password Generator is a program that creates secure, randomized passwords to help users protect their digital accounts. Using Python, the program leverages essential programming principles, including the use of modules, functions, and randomization techniques. This project provides an efficient and user-friendly solution to generate strong passwords by combining uppercase and lowercase letters, numbers, and symbols.

Skills: Basic python programming

ADDITIONAL INFORMATION

- **Technical Skills:** Project Management, Information Security, Network Security
- **Languages:** English, Hindi
- **Certifications:** The digital adda company, The secops Groups
- **Awards/Activities:** Received the "1 position in script " Award on 15th Techno Vision IT Fest 2024 From Tecnia Institute of Advanced Studies
